STELLA P. WENTWORTH,

Madbury, January 29, 1941.

REPORT OF SUPERINTENDENT OF SCHOOLS IN MADBURY, N. H.

To the School Board and Citizens of Madbury:

This is the twelfth annual report which I have submitted. The report of the Nurse, Miss Margaret Macdonald of Newmarket, accompanies mine.

The statistics are for the school year ending in June, 1940. Please note in the table of Comparative Statistics that the total number of children enrolled was less than in any of the last ten years. I regret to say that the per cent of attendance was the lowest and the number of tardinesses the greatest. This poor record, however, was not due to the schools as a whole but to lack of co-operation on the part of a very few parents. I am pleased to say that the report this year will probably be much better. I have only praise for the work of our teachers and our nurse. They deserve the support of everyone.

Last spring term both of our teachers attended a course of sixteen lectures, given by Dr. Payson Smith of Harvard and this fall term Miss Boucher has attended sixteen more given at Dover High School by Prof. Linwood Chase, of Boston University. This shows good professional spirit.

Following the suggestion made in my last report the School Board has caused the two schools to be more equal numerically by transferring the transported pupils from the North to the Center School. This was done with a minimum of friction and I wish to thank those parents who so willingly made the transfer. At present the Center School enrolls sixteen pupils and the North School twenty.

We are printing the names of those who were in

Dover High School for the Fall term of 1940 in order that the citizens may see who are benefitting from the School District. The High School tuition rate this year has been lowered from \$100 to \$91 and a further reduction will be made next year.

We are expecting surplus products to be provided by the W P A to help in furnishing hot lunches for those who remain at the schools during the noon hour. One of the problems is to provide enough water for washing dishes and for cooking in addition to the amount used for drinking. At the North School in September, only one pail of water a day could be spared to the school because of low water in the wells of the community.

The School Board found it necessary to spend more for repairs than the special appropriation called for. The law gives them the power, however, to expend not over five per cent of the budget in addition to the special appropriation for repairs. The balance from last year together with the Literary Fund, which was not otherwise expended, will enable them to just about keep within their budget.

The sanitary arrangements at both schools will have to be improved next summer. The old earth toilets are inadequate and should not be tolerated. We do our best to keep them clean and sweet but it is often impossible.

At the Center School we are recommending as we have done before, the building of an entry at the door.

As I write these lines we are again preparing to give the Metropolitan Achievement tests. The results of previous years have shown that our schools reach a reasonable standard. No pupil failed in the Standard Graduation tests of last June. In some respects our graduates are handicapped when they enter a large city high school, but they usually possess that quality which makes them overcome difficulties and "make good."

The School Board have faithfully held monthly meetings throughout the calendar year.

In October a Rural Teachers Institute was held at the Church with a dinner at the Town Hall, furnished by the ladies of the church. Everybody stayed and enjoyed the dinner and I am sorry that they did not make more money from their efforts. I want to extend to them the thanks of the State Department of Education.

We thank the Grange for giving each school an electric clock. Our thanks are also given to this organization, the Ladies Aid, the Men's Club and the Red Cross for making possible a Community Christmas tree and for furnishing money to continue the dental clinic.

Respectfully submitted,

HOWARD L. WINSLOW,

Superintendent of Schools.

MARGARET SOWERBY HODGDON

On September 7, 1940, at the Delano Convalescent Home in Newmarket, Margaret Sowerby Hodgdon passed away following several months' illness. She was born at Cumberland, England, the daughter of Thomas W. and Deborah (Davidson) Sowerby but came to Dover, N. H. when a young lady. On August 16, 1915, she married George Wilbur Hodgdon and came to Madbury to live.

Mrs. Hodgdon led a very quiet though useful life. Her close circle of friends may well remember her by her unimpeachable honesty and integrity.

ANNA BELLE TIBBETTS

Anna Belle Tibbetts, widow of Frank Eli Tibbetts, passed away on September 24, 1940, following a short illness. Mrs. Tibbetts was born at Barrington on May 10, 1877, the daughter of Thomas and Clarinda (Richardson) McRae. She married Frank Eli Tibbetts in 1897 and they lived together,—until Mr. Tibbetts' death in December, 1931, at the old homestead, the Ebenezer Demeritt House.

Mrs. Tibbetts was the mother of ten children, Anna M., Alice I., Harold F., George E., Thomas M., Charles A., Henry F., William D., Kenneth I. and James M., all of which are now living.

A familiar figure in her garden surrounded by a gorgeous display of flowers, Mrs. Tibbetts will best be remembered. She was a Charter Member of Madbury Grange, No. 343, and had been a member of its executive board. Although quiet and retiring by nature, her kindly neighborly spirit will live in memory and many will regret her untimely passing.
